Subject: RE:

All,

The below bullets are a quick follow-up to some of the questions asked during our meeting today. Please let me know if you have additional questions.

- I checked the eNOI database for Super Salvage's coverage under the 2008 EPA Multi-Sector General Permit for Stormwater Discharges Associated with Industrial Activity (current permit). According to the database, Super Salvage did not apply for permit coverage between January 1, 2005 – present. I also asked our regional DC NPDES Permit POC and she did not have any information on permit coverage for Super Salvage.

- Super Salvage is an industrial scrap recycling facility categorized under Subsector N1 (Scrap Recycling and Waste Recycling Facilities except Source-Separated Recycling) according to Appendix D of the MSGP. Please note that during the meeting I thought this was subsector V. In addition, the Industrial Stormwater Category for Scrapyards falls under 40CFR122.26(b)(14)(vi) - Facilities involved in the recycling of materials, including metal scrapyards, battery reclaimers, salvage yards, and automobile junkyards, including but limited to those classified as Standard Industrial Classification 5015 and 5093.

I think that was it for now and again, please feel free to contact me with additional questions.
Thank you.

Sincerely,

Allison
